

BACHELOR IN POLITICAL SCIENCE

Program structure

YEAR 1 SOCIAL CHALLENGES

Develop awareness about the most pressing social issues and how political science addresses them

Learn the fundamentals of political science, economics, governance, and policy-making

Acquire professional skills like policy writing and public speaking

Apply your knowledge in real-world settings through the Data Management Lab and Policy Innovation Lab

Global Experiences:
Study abroad opportunities and exchanges with top universities

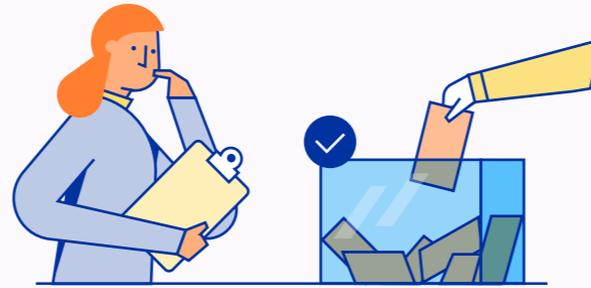

Industry Partnerships:
Collaborate with institutions like Google and the United Nations ITU

YEAR 2 DESIGNING POLICY AND GOVERNANCE SOLUTIONS

Refine your skills in policy design and governance by building on first-year foundations

Deepen your understanding of:
- Democracy and Institutions
- Public Opinion and Electoral Campaigns

Apply knowledge in real-world settings through the Policy Design Lab, AI & Public Policy Lab

Capstone Projects:
Work on real-world policy challenges with partners like GESDA and the Spanish Congress

YEAR 3 IMPLEMENTING AND EVALUATING POLICIES AND SOCIAL IMPACT

Gain the Skills to Turn Policy Ideas Into Real-World Results

Develop expertise in policy monitoring, foresight, risk and finance

Apply knowledge globally through international exchanges

Professional Internships:
Gain experience with governments, NGOs, and international organizations

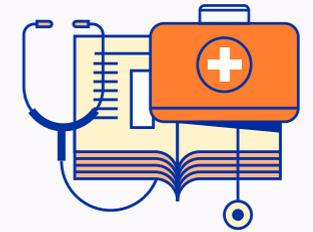

Extracurricular Activities:
Get involved in politics-related clubs, debates, study trips, simulations, competitions and leadership opportunities

YEAR 4 BECOME A SECTORAL POLICY EXPERT

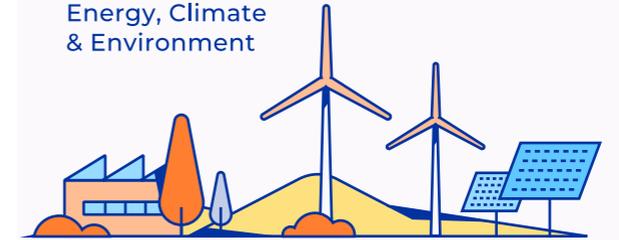

Build your expertise in a specialized policy area through advanced coursework and hands-on experience

Specialize in one of three policy areas:

Health, Education & Welfare

Energy, Climate & Environment

Science & Technology

Policy Innovation Labs:
Work on projects in the Policy Innovation Lab and AI & Public Policy Lab

KEY BENEFITS OF THE PROGRAM
